

Global ESG Committee
Shenzhen Oplus Biotechnology Co., Ltd.

Oplus ESG Statement

At Oplus, we believe that sustainability goes beyond products—it's about our responsibility to the planet, people, and ethical progress. We are committed to integrating Environmental, Social, and Governance (ESG) principles into every aspect of our business, aligning innovation with the well-being of our communities and ecosystems.

Environment

We continuously strive to minimize our environmental footprint by adopting energy-efficient processes, reducing emissions, and managing waste responsibly. Our goal is to develop eco-conscious solutions that help preserve the planet for future generations.

Social Responsibility

Our people are our strength. We foster a diverse and inclusive culture, prioritize health and safety, and actively contribute to the communities we serve. We aim to empower individuals and enhance well-being both within our company and in the broader society.

Governance

Integrity and transparency are at the heart of Oplus. We ensure that our business operations comply with global regulations and uphold the highest standards of ethical behavior. Through strong governance, we build trust with stakeholders and ensure long-term resilience.

As we grow, so does our commitment to a future where innovation and responsibility coalesce. At Oplus, we shape a sustainable future through actions that matter.
